RIVERSIDE CITY COUNCIL MEETING: April 23, 2018

The Riverside City Council meeting opened at 6:30 pm in City Hall with Mayor Allen Schneider requesting roll call. Council members present were: Rob Weber, Andy Rodgers, Tom Sexton, and Bob Schneider Jr. Jeanine Redlinger was absent.

Motion by Weber to approve the agenda, Second by Sexton, passed 4-0.

Sexton moved to approve the minutes from April 16th, and the expenditures. Second by Schneider, passed 4-0.

Kathy Lindhorst presented a petition to Council, with citizen and business signatures, in support of the Northern Development growth area.

Scott Pottorff, of MMS discussed options for ditch drainage problems at the corner of 1st and Boise Street. MMS will include ditch repairs in the design for the Hwy 22 project.

Pottorff presented preliminary plans on the Hwy 22 project for Council input. Final design will be completed in May, with bid letting in June. Work should begin in July.

Pottorff reported on progress of Downtown Streetscape project. Lead water pipes were found at two properties. DNR requires Cities to replace pipes from the main to the curb stop.

Weber moved for the City to replace the lead pipes to the curb stop in the Downtown Streetscape project, with any work after curb stop to be done at owner's expense. Second by Schneider, passed 4-0.

HBK engineering, APEX Construction, and Jeff Edberg were in attendance to continue discussion on the Northern Heights Development. The Council received the revised preliminary plot, and will reassess estimated TIF funds for Phase 1 on the project. APEX is still interested in purchasing two lots on Cherry Lane.

Sexton moved to pass Resolution #042318-01; Setting the date of May, 7, 2018 to hold Public Hearing on the sale of Cherry Lane lot #6 to James Buser and Christina Tollefson. Second by Weber, passed 4-0.

Sexton moved to pass Resolution #042318-02; Setting the date of May, 7, 2018 to hold Public Hearing on the sale of Cherry Lane lot #10 to MSJ LLC. Second by Rodgers, passed 4-0.

Schneider moved to pass Resolution #042318-03; Approving Street Maintenance repairs on Schnoebelen and Washburn Streets for \$1745.15 from L.L. Pelling. Second by Sexton, passed 4-0.

Schneider moved to approve Kirkwood Community College Business Partners Training for city clerk in the amount of \$375. Second by Weber, passed 4-0.

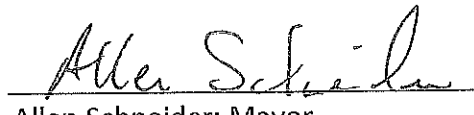

Weber moved to adjourn at 8:36 pm. Second by Rodgers, passed 4-0.

Full content of Council Meetings can be viewed on the City web site;

**RIVERSIDE FIRE
DEPARTMENT****FIRE / RESCUE / EMS / HAZMAT****April 2018 Update****Calls for Service:**

Medicals - 11
Structure Fire – 2
Grass Fires - 7
Car accidents – 1
Vehicle Fires - 2

Total calls – 23 calls for service in April

(Members were again very busy this month responding to all types of calls, we had an increase in grass fires due to dry conditions.)

Training:

Members had monthly training on structure fire response and tactics, this was conducted at an acquired structure north of town. The new training burn structure is in the process of getting the containers and materials ordered to construct the layout inside.

RESA

The members have started planning for RAGBRAI events and what they plan to do for a fund raiser on that day. They have been involved in some meetings with RACC. We received a donation from Kum & Go for Water and Gatorade for our members to have available on scene of calls for rehab or when they return to the station to stay hydrated.

Other News

The chassis for the new grass truck was ordered by Deputy Chief Sexton and will be here sometime in August. We have begun the process of getting the rest of the components of the truck designed and ordered, these pieces are funded by RESA. Fire Chief Smothers has been meeting with Chiefs from Hills, Lone Tree, Ainsworth and Kalona to go over mutual aid response. This is to just make sure we are all on the same page and operating at industry best practices and standards. We have also been involved in meetings with Washington County Emergency Management, Law Enforcement and Washington County Ambulance for emergency response on the day of RAGBRAI.

NOTICE OF PUBLIC HEARING ON
PROPOSED PROPERTY TAX REBATE
AGREEMENT WITH TERRY STUMPF FOR
"ICE IT LLC" FOR THE CITY OF
RIVERSIDE, IOWA.

To all taxpayers of the City of Riverside, Iowa,
and to other interested persons:

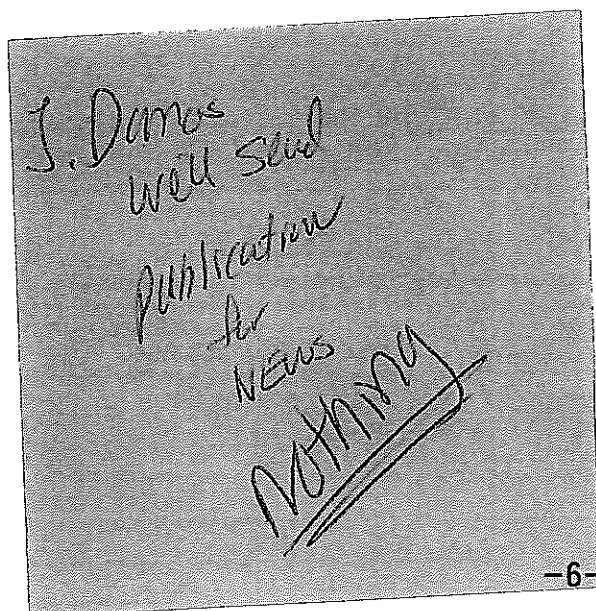

Public notice is hereby given that the City Council of the City of Riverside, Iowa, will conduct a public hearing on proposed property tax rebate with Terry Stumpf for "Ice It LLC" in said City on the 7th day of May, 2018 during the City Council Meeting beginning at 6:30 pm. Meeting to be held in the Riverside City Hall Council Chambers.

Estimated costs of Tax Rebate Agreement are now on file in the office of the City Clerk in Riverside, Iowa, and may be inspected by any interested persons.

Any interested persons may appear at said meeting of the City Council for the purpose of making objections to and comments concerning said plans, specifications, contract or the cost of making said improvement.

Published upon order of the City Council of the City of Riverside, Iowa and as provided by law.

Becky LaRoche, Riverside City Clerk

RESOLUTION NO. 050718-01

Resolution Authorizing Economic Development Grant

WHEREAS, Chapter 15A of the Code of Iowa ("Chapter 15A") declares that economic development is a public purpose for which a city may provide grants, loans, guarantees and other financial assistance to or for the benefit of private persons; and

WHEREAS, Chapter 15A requires that before public funds are used for grants, loans or other financial assistance, a city council must determine that a public purpose will reasonably be accomplished by the spending or use of those funds; and

WHEREAS, Chapter 15A requires that, in determining whether funds should be spent, a city council must consider any or all of a series of factors; and

WHEREAS, the City has undertaken an economic development project consisting of funding a series of economic development grants (collectively, the "Grant") to ICE IT, LLC in connection with acquisition of certain real property and the redevelopment and maintenance thereof for use in the business operations of ICE IT, LLC. (the "Project");

NOW, THEREFORE, IT IS RESOLVED by the City Council of the City of Riverside, Iowa, as follows:

Section 1. Pursuant to the factors listed in Chapter 15A, the City Council hereby finds that:

a) The Project will add diversity and generate new opportunities for the Riverside and Iowa economies;

b) The Project will generate public gains and benefits, which are warranted in comparison to the amount of the proposed Grant;

Section 2. The City Council further finds that a public purpose will reasonably be accomplished by making the Grant in connection with the Project.

Section 3. The Grant to ICE IT, LLC in an amount not to exceed \$80,000 is hereby approved, subject to the terms and conditions set out in the Economic Development Grant Agreement (the "Agreement") to be entered into by ICE IT, LLC and the City. The City staff are hereby authorized and directed to prepare any additional documentation and to make such changes to the Agreement, with the advice of bond counsel or the city attorney, as are deemed necessary to carry out the purposes of this Resolution. The Mayor and the City Clerk are hereby authorized to execute such documents as may be necessary to implement the Grant approved herein, including the Agreement, in substantially the form as has been presented to this City Council.

Riverside /436225-20/ Ec Dev Grant

Section 3. All resolutions or parts thereof in conflict herewith, are hereby repealed, to the extent of such conflict.

Passed and Approved this this May 7, 2018.

Mayor

City Clerk

RESOLUTION NO. 050718-02

Resolution Setting Date for Public Hearing on Designation of the Expanded
Riverside Urban Renewal Area and on Urban Renewal Plan Amendment

WHEREAS, this City Council of the City of Riverside, Iowa (the "City") by resolution previously established the Riverside Urban Renewal Area (the "Urban Renewal Area") and adopted an urban renewal plan (the "Plan") for the governance of projects and initiatives therein; and

WHEREAS, a proposal has been made which shows the desirability of expanding the Urban Renewal Area to add and include all the property (the "Property") lying within the legal description set out in Exhibit A; and

WHEREAS, this City Council is desirous of obtaining as much information as possible from the residents of the City before making this decision; and

WHEREAS, an amendment (the "Amendment") to the Plan has been prepared which (1) covers the addition of the Property to the Urban Renewal Area; and (2) facilitates the undertaking of a new urban renewal project in the Urban Renewal Area consisting of providing tax increment financing support to A&S Holdings, LLC in connection with the construction and development of a new building that will contain commercial retail and office space in the Urban Renewal Area; and

WHEREAS, it is now necessary that a date be set for a public hearing on the designation of the expansion of the Urban Renewal Area and on the Amendment;

NOW, THEREFORE, Be It Resolved by the City Council of the City of Riverside, Iowa, as follows:

Section 1. This City Council will meet at the City Council Chambers, Riverside, Iowa, on May 21, 2018, at 6:30 p.m., at which time and place it will hold a public hearing on the designation of the expanded Urban Renewal Area described in the preamble hereof and on the Amendment.

Section 2. The City Clerk shall publish notice of said hearing, the same being in the form attached hereto, which publication shall be made in a legal newspaper of general circulation in Riverside, which publication shall be not less than four (4) and not more than twenty (20) days before the date set for hearing.

Section 3. Pursuant to Section 403.5 of the Code of Iowa, the City Clerk is hereby designated as the City's representative in connection with the consultation process which is required under that section of the urban renewal law. It is hereby directed that representatives of Washington County and the Highland Community School District be invited to participate in the consultation.

Riverside/436225-20/Set Hrg UR Amend

Section 4. The proposed Amendment is hereby submitted to the City's Planning and Zoning Commission for review and recommendations, as required by Section 403.5, Code of Iowa.

Passed and approved May 7, 2018.

Re: Water Service to Riverside Grain and Feed

Mayor Schneider and Council:

Last week it was time to connect the water service for Riverside Grain and Feed to the new water main along Highway 22. The plans showed boring under Highway 22 and installing a curb stop and connecting to the existing service in the grass area along Highway 22 east of the Riverside Grain and Feed building. The contractor dug to locate the service and could not find it at that location. City public works staff and some of the contractor's workers looked for where it came into the building as well as talked to Riverside Grain and Feed staff to try and determine the location of the water service. After several hours of looking around and talking to people nobody had a good idea of the actual location of the service.

It was decided to bore the new service across at the location shown on the plans and to do some digging next to the building to try and locate the service. The service was finally found near the building. The contractor then bored the new service line across the Highway at a new location in front of the building to the location near the building where the service was found and installed the curb stop and made the connection to the existing at that location near the building. It was determined that the curb stop location near the building was the safest place for it with the heavy truck traffic in the lot. The picture below shows the original location of the service along with the actual location installed.

The cost for boring the service under Highway 22 was included in the plans. There will be extra cost for some exploratory excavation to locate the existing service and extra cost for boring the service line outside the ROW. We have a bid item per lineal foot for boring service line after the curb stop that we will use for the remainder of the service line to the building. Of the 85 feet of boring, approximately 50 feet would be included in the bid item. The unit cost for boring past the curb stop is \$24.00/LF so the estimated extra cost is $35 * \$24.00 = \840.00 .

Downtown Streetscape Improvements Project
 Change Order #1

The following changes to the contract are requested to change the water service pipe material from Type K copper to HPDE SDR-9 plastic.

The attached pricing breakdown shows the changes on a lineal foot basis. Since the water services are bid based on each service, the total cost of \$1,509.20 was divided among the 24 services. The changes required for this work are as follows:

DELETE

<u>Item</u>	<u>Est Quantity</u>	<u>Unit Price</u>	<u>Total Estimated Cost</u>
Water Service, Main to Curb Stop, 1" Copper	21 EACH	\$1,500.00	\$31,500.00
Water Service, Main to Curb Stop, 1" Copper, Trenchless	3 EACH	\$4,000.00	\$12,000.00
	TOTAL DELETED		\$43,500.00

ADD

<u>Item</u>	<u>Est Quantity</u>	<u>Unit Price</u>	<u>Total Estimated Cost</u>
Water Service, Main to Curb Stop, 1" HDPE SDR9	21 EACH	\$1,437.12	\$30,179.52
Water Service, Main to Curb Stop, 1" HDPE SDR9, Trenchless	3 EACH	\$3,937.12	\$11,811.36
	TOTAL ADDED		\$41,990.88

Change to the Contract

This change order would add and remove the above items to the contract and decrease the amount of the contract by \$1,509.12.

RESOLUTION #050718-09

**RESOLUTION APPROVING CHANGE ORDER #2 FOR J & L
CONSTRUCTION, LLC FOR THE DOWNTOWN STREETSCAPE
IMPROVEMENTS PROJECT**

Whereas, the City of Riverside City at the recommendation of the City Engineering Firm, MMS Consultants, Scott Pottorff and it is the opinion of the City Engineering Firm that the City Council accept this Change Order #1 in the amount of \$ 2,213.19.

Therefore, be it resolved the City of Riverside City Council does hereby accept the Change Order #2 to extend the new water services into three buildings to eliminate lead water service lines in the Downtown Streetscape Project.

It was moved by Councilperson _____, seconded by Councilperson _____, to approve the foregoing resolution on May 7th, 2018.

Roll Call: Redlinger, Schneider, Sexton, Weber, Rodgers

Ayes:

2245-013

Downtown Streetscape Improvements Project
 Change Order #2

The following changes to the contract are requested to extend the new water services into the building to eliminate lead water service lines.

The attached pricing breakdown shows the changes on a lineal foot basis. Since the water services are bid based on each service, the total cost of \$1,509.20 was divided among the 24 services. The changes required for this work are as follows:

ADD

<u>Item</u>	<u>Est Quantity</u>	<u>Unit Price</u>	<u>Total Estimated Cost</u>
Extend Water Service into Building And Connect to Existing Service Inside Building	3 EACH	\$737.73	\$2,213.19
	TOTAL ADDED		\$2,213.19

Change to the Contract

This change order would add the above item to the contract and increase the amount of the contract by \$2,213.19.

Reason for changes

There were some lead water service materials in the existing water services in the downtown area. The lead services are known to be a risk to public health. The City decided to take steps to remove any uncovered lead water services by removing the portion of the lead service from the main to the water meter inside the building. Since the plans called for connection to the service outside of the building there is extra work to extend the service into the building. There is only one known location for this work to date but other water services are yet to be uncovered.

Sent: Monday, April 23, 2018 5:10 PM
To: 'Scott Pottorff'
Subject: RE: Riverside Streetscape Work Session Questions about lead service costs

Per Jay ----

Carter:	\$330.00	cost for each service
	<u>\$ 49.50</u>	Carter's markup
	\$379.50	Carter's Total
	<u>\$ 18.98</u>	J & L's Overhead/Profit
	\$398.48	Cost to extend each service
	Plus	
Kuenster:	<u>\$339.25</u>	
	\$737.73	Total cost each for each lead service in the downtown area

If the City wants to connect the two services from last year inside the building it will be \$638.25 for both.

Also Jay mentioned that the new services will need to be hooked up prior to killing the old line.

If you have any other questions prior to your meeting feel free to call Jay at (319) 530-0168 as he is still on site. Thanks!!

Subject: RE: Riverside Streetscape Work Session info + PCC Maturity test

So if we have any more lead services in the downtown area other than the one in the current stretch, the lump sum price for each one is \$330 for Carter and \$339.25 for Kuenster for a total of \$669.25 each?

And if the City wants to connect the two services from last year inside the building it would be another \$638.25 for both?

Riverside, Iowa 52327

Dear Ms. LaRoche:

Thank you for requesting our office to perform the annual examination for the City of Riverside for the year ending June 30, 2018. We will be pleased to continue to perform the annual examination, and accordingly, will include it on our schedule. Kathy Rupp is the Manager assigned for your examination. She will contact you prior to beginning fieldwork to arrange the necessary details.

Based upon the information available, we estimate the cost to perform the examination for the year ending June 30, 2018 will not exceed \$5,600, except as specifically agreed by the City of Riverside and the Office of Auditor of State. This estimate does not include the required filing fee of \$175 as provided for under Iowa Code section 11.5, subsection 10.

In addition to providing examination services to the City of Riverside, you may request we perform additional services not addressed in this estimate. If this occurs, we will communicate with you regarding the scope of the additional services and the estimated fees. The Office of Auditor of State is actively involved throughout the year in providing technical guidance, assistance and training to government officials, employees and auditors. Our experience in these areas and our extensive local government auditing experience would be used to assist the City of Riverside, both currently and in subsequent years, in operating as efficiently and as effectively as possible.

We anticipate performing fieldwork for the annual examination in December 2018. Report preparation and office review will be performed with delivery of a mutually-agreed number of copies of the final report by March 31, 2019.

We look forward to the opportunity to continue to provide our services to the City of Riverside. Please feel free to contact me or Kathy Rupp if we can provide any additional information.

Sincerely,

A handwritten signature in dark ink, appearing to read "Andrew E. Nielsen".

Andrew E. Nielsen, CPA
Deputy Auditor of State

Subject: FW: Additional mitigation strategy

Hi Becky,

I remembered that there was an additional email that I sent to Lory that you probably haven't seen. It is below. When the Council meets, can you also have them consider the mitigation strategy below, which I would like to add to the plan? This is something I meant to cover in our meeting but forgot to bring up.

Thank you,

Tom

To: 'Lory Young'
Subject: Additional mitigation strategy

Hi Lory,

I forgot to cover something during the community meeting. If the committee is okay with it, I would like to add a mitigation strategy to support the English River Watershed Management Authority. If the City does not implement the strategy, there are no consequences for that; I would like it to be there in case it is helpful for a Riverside project or if including it in the plan would be helpful for the WMA in performing their duties. The strategy follows:

"Identify and implement practices and projects that complement Goal F from the *English River Watershed Improvement & Resiliency Plan*, i.e. increase water-holding capacity and promote infiltration on both urban and rural landscapes."

Please discuss this with your committee and let me know if you would like to include this strategy, or not.

To: 'Lory Young'
Subject: Riverside Community Summary

Hi Lory,

I hope this email finds you well. I have updated Riverside's Community Summary. Please review it for accuracy. I have two or three things that I need:

1. The addresses for the critical facilities, pg. 10.
2. A time of year that you and/or the City Council will review the plan annually. We may not have had time to discuss this during the meeting. A brief review of the plan is recommended. I can provide a reminder and guide you to the sections of the plan relevant to Riverside.
3. If you are unsure about this part, that is okay, I am just looking for some extra context. Do you recall why "Complete water/waste water improvements" was added to the mitigation actions? Was there discussion about having more redundancy or backups in the control systems? I might add that in the notes, but I think it is okay to leave the action as-is, too.

Please let me know if you have any questions.

Happy Holidays!

COMMUNITY SUMMARY

WASHINGTON COUNTY MULTI-JURISDICTIONAL HAZARD MITIGATION PLAN

CITY OF RIVERSIDE

This document provides a summary of the hazard mitigation planning information for the City of Riverside that will be included in the Washington County Multi-Jurisdictional Hazard Mitigation Plan. This summary is not comprehensive and subject to change based on new information or public input.

Summary completed December 2017

For more information, please contact Tom Gruis at the East Central Iowa Council of Governments by email at tom.gruis@ecicog.org or by phone at 319-365-9941 ext. 130.

DRAFT DOCUMENT**HAZARD RISK ASSESSMENT**

To determine the extent a mitigation strategy should focus on hazards, the full set of hazards that can potentially affect Washington County were prioritized using the criteria in the *2013 Iowa Hazard Mitigation Plan*. The assessment is based on hazard probability, magnitude, severity, warning time, and duration. Each element of assessment is detailed in Tables 1–4. In the hazard profiles, each element of the assessment is discussed in the context of Washington County.

Probability reflects the likelihood of the hazard occurring again in the future, considering both the hazard's historical occurrence and the projected likelihood of the hazard occurring in any given year. This factor was weighted 0.45 in the assessment. See scoring criteria in Table 1.

Table 1: Probability Scoring Criteria

Score	Description	
1	Unlikely	Less than 10% probability in any given year, history of events is less than 10%, or event is unlikely but there is a possibility of occurrence
2	Occasional	Greater than 10% up to 19% probability in any given year, history of events is greater than 10% up to 19%, or the event could possibly occur
3	Likely	Greater than 19% up to 33% probability in any given year, history of events is greater than 20% up to 33%, or the event is likely to occur
4	Highly Likely	More than 33% probability in any given year, history of events is greater than 33% likely, or the event is highly likely to occur

The magnitude and severity of the impacts of a hazard event is related directly to the extent that a hazard affects the community. It is measured using technical measures specific to the hazard, which are ideally determined with standard scientific scales. This is also a function of when the event occurs, year-round or seasonal, the location affected, the resilience of the community, and the effectiveness of emergency response and disaster recovery efforts. The factor was weighted 0.30 in the assessment. See scoring criteria in Table 2.

Table 2: Magnitude/Severity Scoring Criteria

Score	Description	
1	Negligible	Less than 10% of property severely damaged, shutdown of facilities and services for less than 24 hours, and/or injuries/illnesses treatable with first aid
2	Limited	Greater than 10% up to 25% of property severely damaged, shutdown of facilities and services for more than a week, and/or injuries/illnesses that do not result in permanent disability
3	Critical	Greater than 25% up to 50% of property severely damaged, shutdown of facilities and services for at least 2 weeks, and/or injuries/illnesses that result in permanent disability
4	Catastrophic	More than 50% of property severely damaged, shutdown of facilities and services for more than 30 days, and/or multiple deaths

DRAFT DOCUMENT

Warning time or the speed of onset is the amount of warning time available before a hazard occurs. The average rather than shortest or longest warning time is considered in the hazard assessment. For many natural hazards, there is a considerable amount of warning time as opposed to the human caused hazards that occur instantaneously or without any significant warning time. This factor was weighted 0.15 in the assessment. See scoring criteria in Table 3.

Table 3: Warning Time Scoring Criteria

Score	Description
1	More than 24 hours warning time
2	More than 12 up to 24 hours warning time
3	6 to 12 hours warning time
4	Minimal or no warning (less than 6 hours warning)

Duration is the typical amount of time that the community is impacted by a hazard. As an example, a snowstorm will likely last several hours, whereas a lightning strike would last less than a second. This factor was weighted 0.10 in the assessment. See scoring criteria in Table 4.

Table 4: Duration Scoring Criteria

Score	Description
1	Less than 6 hours
2	Less than 1 day
3	Less than 1 week
4	More than 1 week

With the weight value applied to each factor, the sum of the assessment criteria is used to determine the priority level of each hazard. The priority level determines how much focus is given to the hazard in the overall mitigation strategy. See Table 5 for the description of each priority level. The priority level determined for each hazard may not completely reflect the description of each level. The priority level that most accurately fits a hazard is applied, or due to local conditions and/or the planning committee, priority level may be adjusted.

Table 5: Hazard Priority Level

Hazard Priority		Description
1	High	Risk assessment score is high relative to other hazards; hazards may have occurred recently with severe impacts and long-term recovery; the hazard is generally a high priority in the community; the planning committee will identify potential mitigation projects
2	Medium	Risk assessment score is mid-range relative to other hazards; mitigation actions for hazards may already be complete or in progress; the hazard is generally a medium priority in the community; the planning committee will identify potential mitigation projects that may also address other hazards
3	Low	Risk assessment score is low relative to other hazards; mitigation actions for hazards may already be complete; the hazard is generally a low priority in the community; the planning committee may discuss potential mitigation projects

DRAFT DOCUMENT

The multi-jurisdictional hazard risk assessment results for Washington County are included in Table 6. The assessment was used by each participating jurisdiction as a base for their specific hazard risk assessment. The planning committee was given an opportunity to modify the priority level of hazards to reflect local conditions and priorities. See Table 7 for the prioritization of hazards in Riverside.

Table 6: Washington County Multi-Jurisdictional Hazard Analysis and Risk Assessment

Hazard	Type	Probability	.45	Magnitude and Severity	.30	Warning Time	.15	Duration	.10	Total	Priority Level
Animal, Plant, Crop Disease	Natural	2	.90	2	.60	4	.60	4	.40	2.50	2
Drought	Natural	4	1.80	2	.60	1	.15	4	.40	2.95	1
Earthquake	Natural	1	.45	1	.30	4	.60	1	.10	1.45	3
Expansive Soils	Natural	1	.45	1	.30	1	.15	1	.10	1.00	3

Transportation Incident	Technological	2	.90	1	.30	4	.60	2	.20	2.00	2

DRAFT DOCUMENT**Table 7: Riverside Hazard Prioritization**

Hazard	Type	Current Priority Level	Priority Level Update
Animal, Plant, Crop Disease	Natural	2	2
Drought	Natural	2	2
Earthquake	Natural	1	3
Expansive Soils	Natural	3	3
Extreme Heat	Natural	1	1
Flash Flood	Natural	1	1
Grass and Wild Land Fire	Natural	2	3
Hazardous Materials Incident	Technological		1
Human Disease	Natural	1	2
Infrastructure Failure	Technological	1	1
Landslide	Natural	3	3
Levee and Dam Failure	Technological	Excluded	Excluded
Radiological Incident	Technological	2	3
River Flood	Natural	1	1
Severe Winter Storm	Natural	1	1
Sinkholes	Natural	Excluded	Excluded
Terrorism	Human Caused	1	1
Thunderstorm, Lightning and Hail	Natural	1	1
Tornado and Windstorm	Natural	1	1
Transportation Incident	Technological	2	1

It should be noted that hazards from the existing plan were grouped to reflect the simplified list of hazards in the 2013 Iowa Hazard Mitigation Plan. To compare the previous and new assessments, the score for combined hazards were averaged to determine priority level. Refer to Table 8.

Table 8: Combined Hazards

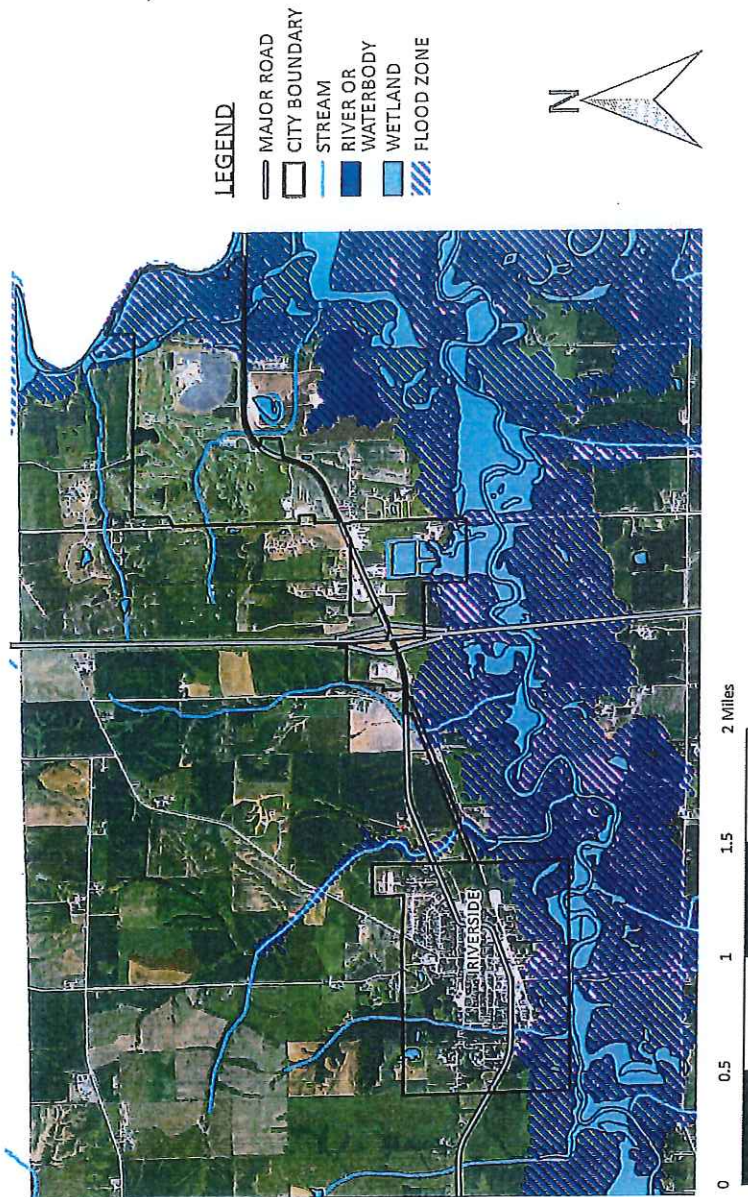

Combined Hazard	Hazards
Human Disease	Human Disease Incident and Pandemic Human Disease
Hazardous Materials Incident	Fixed Hazardous Materials, Pipeline Transportation, and Transportation Hazardous Materials
Infrastructure Failure	Communication Failure, Energy Failure, Structural Failure, and Structural Fire
Transportation Incident	Air Transportation, Highway Transportation, Railway Transportation, and Waterway Incident
Terrorism	Enemy Attack, Biological Terrorism, Agro-Terrorism, Chemical Terrorism, Conventional Terrorism, Cyber Terrorism, Radiological Terrorism, and Public Disorder
Radiological Incident	Fixed Radiological Incident and Transportation Radiological Incident

DRAFT DOCUMENT

Riverside changed the priority level of six hazards. Earthquake was updated from a ranking of 1 to a ranking of 3, which is in line with the countywide assessment and was considered appropriate by the Riverside Planning Committee. Grass and Wild Land Fire was updated to a ranking of 3 from a 2, bringing it in line with the countywide assessment and the conditions in Riverside. Hazardous Materials Incident was changed from a ranking of 2 to 1 because a new truck wash is under constructions, which could bring more hazardous materials in transport into the jurisdiction. Human disease was changed to a ranking of 2 from a 1 to be consistent with the countywide plan. Likewise, Radiological Incident was changed from a 2 to a 3. Finally, the Committee felt that a priority rank of 1 was more appropriate than a rank of 2 because of US Highway 218 and Iowa Highway 22, which run through the community.

DRAFT DOCUMENT**CRITICAL FACILITIES AND VULNERABLE POPULATIONS**

Critical facilities are the buildings, facilities, and infrastructure that provide essential services to the residents and businesses in the community. In Riverside, all City property and infrastructure are considered critical facilities. For specific critical facilities, refer to Table 9.

Table 9: Riverside Critical Facilities

Facility	Location
City Hall	60 N. Greene St.
Fire station	
Early warning siren	
Water tower	
Water plant	
Wastewater plant	
Shop	
Riverside Elementary School	220 Schnoebelen St.
Electrical substation	

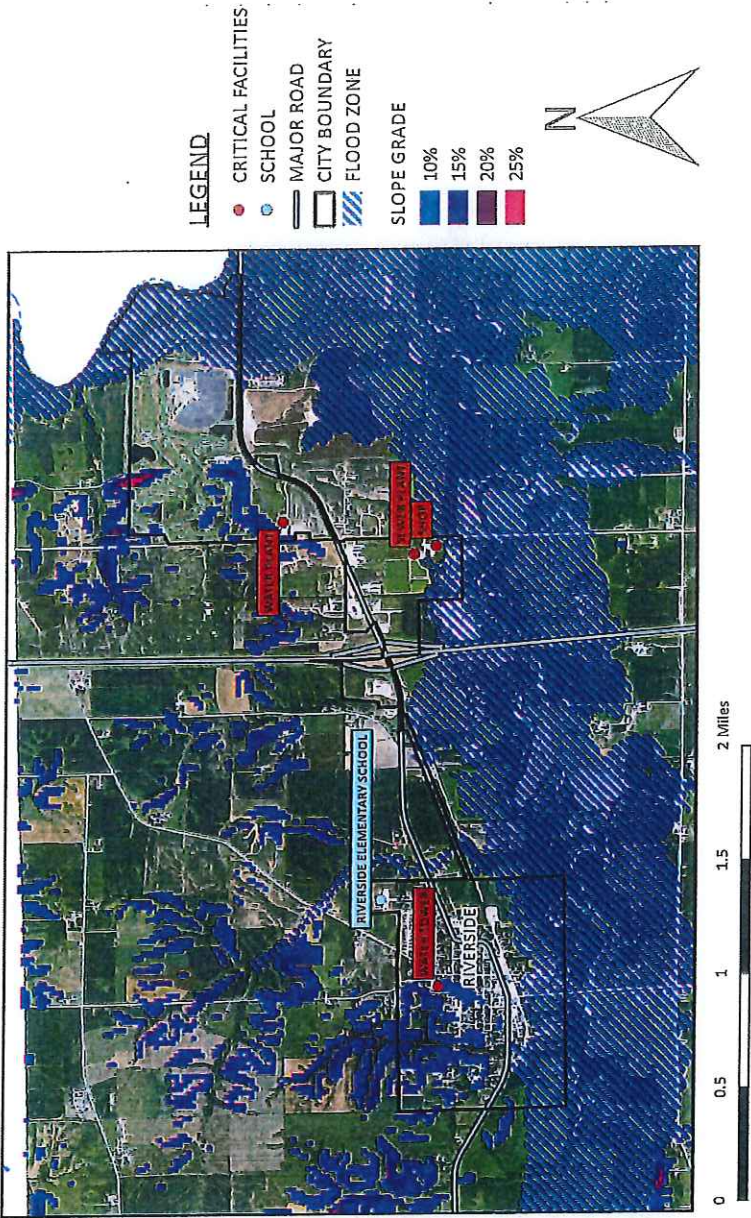

There are several facilities with vulnerable populations identified within Riverside. See Table 10.

Map 4: Riverside Critical Facilities and Vulnerable Populations

DRAFT DOCUMENT**PLANNING GOALS**

Throughout the development process of this plan, goals were used as a guide for planning committee discussion and final decision making. Jurisdiction representatives reviewed the goals in the current hazard mitigation plan and example goals provided by the planning consultant.

Current Hazard Mitigation Goals

1. Protect critical facilities, infrastructure and other community assets from the impacts of hazards.
2. Protect the health, safety and property of residents in the planning area.
3. Improve education and awareness regarding hazards, risk and reducing vulnerability in the planning area.
4. Ensure that public funds are used in the most efficient manner.

Example Hazard Mitigation Goals

1. Protect the health and safety of residents, visitors, staff, and emergency personnel (paid or volunteer) during and after hazard events
2. Minimize losses to existing and future structures in hazard areas. Critical facilities are priority structures.
3. Maintain local services and infrastructure in order to reduce community, economic, and environmental disruption during and after hazard events.
4. Educate residents and visitors about hazards and the resources available.
5. Use public funds in a cost effective and fair manner.

Attendees decided to adopt the example goals except for one addition the last goal, which is adding the word "efficient."

Hazard Mitigation Goals Update

1. Protect the health and safety of residents, visitors, staff, and emergency personnel (paid or volunteer) during and after hazard events
2. Minimize losses to existing and future structures in hazard areas. Critical facilities are priority structures.
3. Maintain local services and infrastructure in order to reduce community, economic, and environmental disruption during and after hazard events.
4. Educate residents and visitors about hazards and the resources available.
5. Use public funds in an efficient, cost effective, and fair manner.

DRAFT DOCUMENT**OPERATIONS AND RESOURCES**

Riverside has a wide range of operations and resources to implement a well-rounded hazard mitigation strategy. All City operations and resources were considered throughout the plan development process to ensure the City's final mitigation strategy is feasible. See Table 11.

Table 11: Riverside Operations and Resources

Officials, Commissions, and Committees	• Mayor* • City Council* • Washington County Emergency Management Commission* • Planning and Zoning Commission
Staff and Departments	• City Clerk* • Utilities* • Parks and Streets* • Water/Waste Water
City Services	• Clean and secure water supply* • Wastewater management and treatment* • Riverside Fire Department* • Riverside First Responders* • Street maintenance and improvements* • Vegetation and tree management in public areas* • Snow removal* • Outdoor warning siren system* • Yard waste management • Cemetery maintenance
Contracted or Agreement Services	• Washington County Emergency Management Agency* • Washington County Sheriff's Department* • Emergency Medical Service* • Fire protection mutual aid agreements* • East Central Iowa Council of Governments (ECICOG)* • Southeast Iowa Multi-County Landfill (SEMCO) • Solid waste and recycling • Storm debris removal* • Kalona Public Library • Muscatine Fire Department for countywide HAZMAT response*
Policies, Programs, and Plans	• Riverside Code of Ordinances* • Comprehensive Plan* • Zoning Code* • Comprehensive Regional Development Strategy (CRDS) • Washington County Emergency Management Plan* • Coordinate with Washington County Emergency Management Agency* • Coordinate with Washington County Public Health* • Coordinate with Iowa Department of Natural Resources*
Local Organizations	• St. Mary's Catholic Church • Trinity United Methodist Church
Financial and Other Resources	• City budget* • Bonds • Grants • Donations

DRAFT DOCUMENT

*The asterisk indicates officials or staff that participated in the plan development process or policies, programs, and plans that were discussed or reviewed for relevancy in the City's mitigation strategy.

DRAFT DOCUMENT**MITIGATION STRATEGY**

All identified hazards are addressed by at least one mitigation action in Riverside's final mitigation strategy. Several mitigation actions address multiple hazards due to the similar impacts. Mitigations actions for flood or severe weather hazards are often similar. See Table 12 for the City's mitigation strategy.

Table 12: Riverside Mitigation Strategy

Proposed Mitigation Action	Hazard(s) Addressed	Goal(s) Addressed	Inclusion in Existing Plan	Update/Notes
Install generator at one or more critical facilities	Flash flood; river flood; infrastructure failure; severe winter storm; thunderstorm, lightning, and hail; tornado and windstorm	1, 3, 5	X	Riverside would like to install a generator at City Hall
Install safe room in a possible future Community Center	Tornado and windstorm	1, 5	X	Riverside may consider a safe room for a new Community Center or other new critical facility.
Security cameras at critical facilities	Terrorism	1, 5	X	
Flood buyouts	River flood	1, 2, 5	X	
Warning siren installation or update	Thunderstorm, lightning, and hail; tornado and windstorm	1, 4, 5	X	
Complete water/waste water improvements	Flash flood	1, 2, 5		
Community newsletter	All hazards	1, 4, 5		

DRAFT DOCUMENT**ACTION PLAN**

To determine how a mitigation strategy should be completed, an action plan and timeline for mitigation actions was determined through a prioritization process that considered local priorities and capabilities identified in the Operations and Resources section, potential benefit, and estimated cost. Ultimately, mitigation actions were assigned a priority level by the planning committee, which determines the potential timeline for completion. Refer to Tables 13–14.

Table 13: Benefit vs. Cost Criteria

Type	Benefit	Cost
High	Results are likely immediate and/or widespread reduction of risk from hazard(s) addressed; generally supported by the community; lead agency has capabilities	Existing funding is not adequate to complete the project; funding may only be available through grants/assistance; anticipated to cost greater than \$100,000
Medium	Results are likely a long-term reduction of risk from hazard(s) addressed and/or results are not widespread; potential community opposition; lead agency has capabilities	Requires amending the budget and/or requires a bond to complete the project; anticipated to cost between \$10,000 and \$100,000
Low	Results are difficult to determine and/or may not result in long-term reduction of risk from hazard(s) addressed; definite community opposition; lead agency may encounter capability issues	Existing funding is adequate or the project can be completed through volunteer and/or staff time; anticipated to cost less than \$10,000

Table 14: Mitigation Action Priority Level Criteria

Priority Level	Potential Project Timeline
1	1–5 years
2	5–10 years
3	10–15 years

For most jurisdictions, not all mitigation actions considered in the prioritization process met exact criteria. The planning team in each jurisdiction developed the final action plan to ensure priority levels reflect local priorities and capabilities. It should be noted, not all jurisdictions identified all three priority levels for mitigation actions. Some jurisdictions have adopted a shorter term focus for completing mitigation actions.

In addition to the potential benefit, cost, and priority level of a mitigation action, the action plan also identifies the individual position in the jurisdiction that is the lead, potential partners, and funding sources. In the action plan for each jurisdiction, some of the identified potential partners and funding sources are abbreviated. Table 15 is reference for the abbreviations. All other partners and funding sources are explanatory.

DRAFT DOCUMENT**Table 15:** Potential Partner and Funding Abbreviations

Potential Partner or Funding	Abbreviation
Iowa Homeland Security and Emergency Management Division	IHSEMD
Iowa Department of Natural Resources	Iowa DNR
Iowa Department of Transportation	IDOT
Washington County Emergency Management Agency	Washington County EMA
East Central Iowa Council of Governments	ECICOG
Community School District	CSD
Pre-Disaster Mitigation	PDM
Hazard Mitigation Grant Program	HMGP
Flood Mitigation Assistance	FMA
Community Development Block Grant	CDBG
United State Department of Agriculture	USDA

The Riverside planning committee prioritized the mitigation actions in the jurisdiction's mitigation strategy to determine the potential benefit, cost, and priority level. Mitigation actions with a high priority level are expected to be addressed by the jurisdiction during the life of this plan. Refer to Table 16 for the City's action plan.

Table 16: Riverside Action Plan

[illegible]

DRAFT DOCUMENT**PLAN INCORPORATION AND REVIEW**

The City of Riverside will officially adopt the Washington County Multi-Jurisdictional Hazard Mitigation 2019–2024 by resolution at a City Council meeting. Annual review of the plan will occur by the City Clerk and City Council in .

PLANNING COMMITTEE AND MEETING

In this multi-jurisdictional planning process, a planning committee was established to ensure the final plan reflects local capabilities, conditions, and priorities in each community. The composition of planning committees throughout Washington County varies due to type, size, and past planning efforts in each community. The members and meeting attendance for the planning committee is included in Table 17 to provide context for how final mitigation strategies were identified for each jurisdiction.

Table 17: Riverside Planning Committee

Name	Position/Organization
Allen Schneider	Mayor/Riverside
Bryan Lenz	City Water/Riverside
Bill Stykey	Waste Water Manager/Riverside
Becky LaRoche	Utility Billing Clerk/Riverside
Jeanine Redlinger	Council Person/Riverside
Marissa Reisen	Emergency Management Coordinator/Washington County Emergency Management Agency
Lory Young	City Clerk/Riverside
Rober Schneider	Council Person/Riverside

Meeting documentation is included in the following pages. Documentation includes public notice, agenda, meeting minutes, and sign-in sheet.

MEETING MINUTES

Washington County Hazard Mitigation Plan
Riverside Community Meeting

November 6, 2017
5:30–6:30 p.m.

Riverside City Hall
60 N. Greene Street
Riverside, Iowa

1. Consultant and planning committee introductions

The consultant, Tom Gruis, introduced himself as a planner with the East Central Iowa Council of Governments (ECICOG). The consultant was hired to administer and complete the requirements of the county's hazard mitigation grant that is funding the update. The city's planning committee members introduced themselves and explained their role and experience with the community. Refer to the sign-in sheet.

2. Hazard mitigation planning overview

The consultant explained the purpose and benefits of participating in a FEMA-approved hazard mitigation plan—primarily the identification of hazards and developing a mitigation strategy to reduce negative impacts.

3. Hazard Mitigation Assistance funding programs overview

The consultant explained that local governments with a FEMA-approved hazard mitigation plan are eligible to apply for Hazard Mitigation Assistance (HMA) funding, which includes Pre-Disaster Mitigation (PDM) funding, Hazard Mitigation Grant Program (HMGP) funding, and Flood Mitigation Assistance (FMA) funding. PDM and HMA funds are available on an annual basis and HMGP funds are available when there is a federal disaster declaration anywhere in Iowa. All HMA funding requires local match, which is typically 25% of the total project cost.

4. Review and update risk assessment

The consultant provided a countywide risk assessment completed with recent data and maps to use as a guide for reviewing and updating the city's risk assessment. The consultant also provided the city's risk assessment from a prior planning meeting when Riverside was considering being amended into the plan. The planning committee reviewed the risk assessment and updated priority levels to reflect current conditions and priorities. Some changes were made, usually to align more closely with the countywide risk assessment if the committee could not identify unique risks for the City. Refer to the city's summary documentation for the risk assessment criteria, countywide risk assessment for reference, the city's risk assessment from the current plan, and the updated risk assessment with an explanation of the updated priority levels.

5. Review and update critical facilities

The planning committee identified all critical facilities to be considered in the city's mitigation strategy. Some additional facilities were added, and the Community Center was removed, as it does not currently exist; it is a

DRAFT DOCUMENT

facility the City has considered constructing. The consultant will develop a map with all critical facilities to include in the city's summary documentation and the final plan.

6. Review and update vulnerable populations

The planning committee identified the Riverside Elementary School and the Riverside Casino as locations that may host vulnerable populations.

7. Review and update operations and resources

The planning committee discussed current operations and resources to determine how the city is reducing the negative impacts of hazards in normal operations.

8. Review and update mitigation strategy

The planning committee reviewed the city's mitigation strategy developed during the earlier referenced planning meeting held to amend Riverside into the current plan. The committee updated two mitigation actions and added two mitigation actions. Refer to city's summary documentation for the final mitigation strategy developed by the planning committee.

9. Prioritize mitigation strategy

The planning committee prioritized the city's mitigation strategy by discussing the costs, benefits, and realistic timeline for completing mitigation actions.

10. Discuss next steps in plan development process

The planning consultant explained the next step in the update process, which is to provide a summary of everything discussed during the meeting. The City and planning committee will be expected to review the summary and provide feedback. The plan update is a multi-year process, and the City will not need to take any additional action until the final draft of the plan is available for public comment. The public comment period will be the final chance for the City to provide feedback and request changes before the plan is submitted for review and approval. The City will be asked to adopt the plan by resolution after the plan is submitted to FEMA. A copy of the plan will be provided to the City after the plan is officially approved by FEMA. The consultant also explained that the State recommends annual review of the plan to consider progress made on the mitigation strategy and any actions that could be undertaken in the following year.

Meeting minutes were completed by Tom Gruis on 11/16/2017.
