

Now recruiting participants

For those of you in eastern Iowa, we've started recruiting participants to ride in the vehicle with us! We're looking for people who

- Are age 65 or older or
- Have a disability that affects their mobility (age 25 or older) or
- Have low vision impairment (age 25 or older)

We will be looking at individuals' comfort levels and perceptions of the technology. If you work with community members in or near Iowa City, Hills, Riverside, or Kalona that might qualify, please share this link with them: adsforruralamerica.uiowa.edu/participate. The website will give them more information, and it contains a link to an eligibility questionnaire for them (or you!) to fill out.

We appreciate you helping spread the word!
